

## Speaking Reading Report and Question Side UI

### Speaking Question UI:

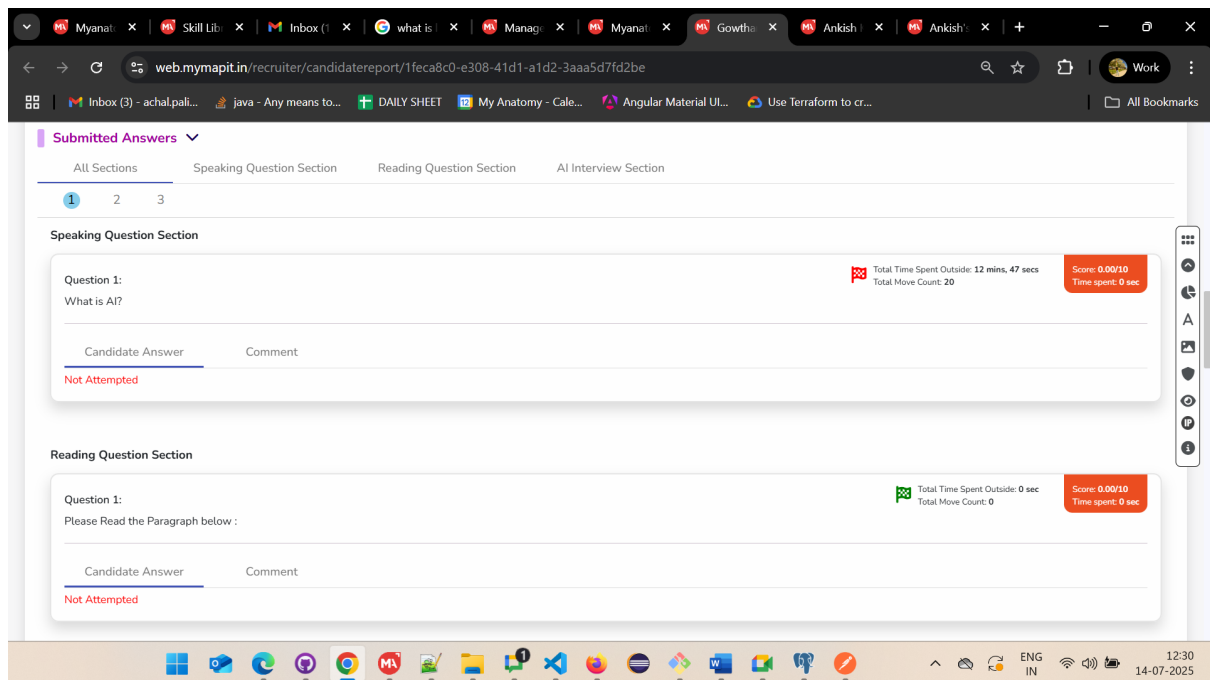

**Note: You can update marks using update button in submission type of all question. (Consider in UI Design or wire frame)**

The screenshot shows a web browser window with the URL `web.mymapit.in/recruiter/candidate/report/9130d76b-d343-4dba-8039-48fdb9da0eac`. The page is titled "Submitted Answers" and has tabs for "All Sections", "Speaking Question Section", "Reading Question Section", and "AI Interview Section". The "Speaking Question Section" is active, showing "Question 1: What is AI?". The "Candidate Answer" tab is selected, displaying an audio player with a duration of 0:00. Below the audio player, there is a text area containing the candidate's answer: "Mhm. Click on it. It will start recording and give some kind of feedback recording it will also show the time. Okay. And you also spend maximum time that is store providing solution and close. But the close is disabled. I don't think we need to close, but". To the right of the text area, there are buttons for "Confidence", "Sentiment", and an information icon. The top right corner shows a score of 0.93 / 10 and a time spent of 5 mins, 3 secs. The bottom of the browser window shows the Windows taskbar with various application icons and the system clock indicating 12:25 on 14-07-2025.

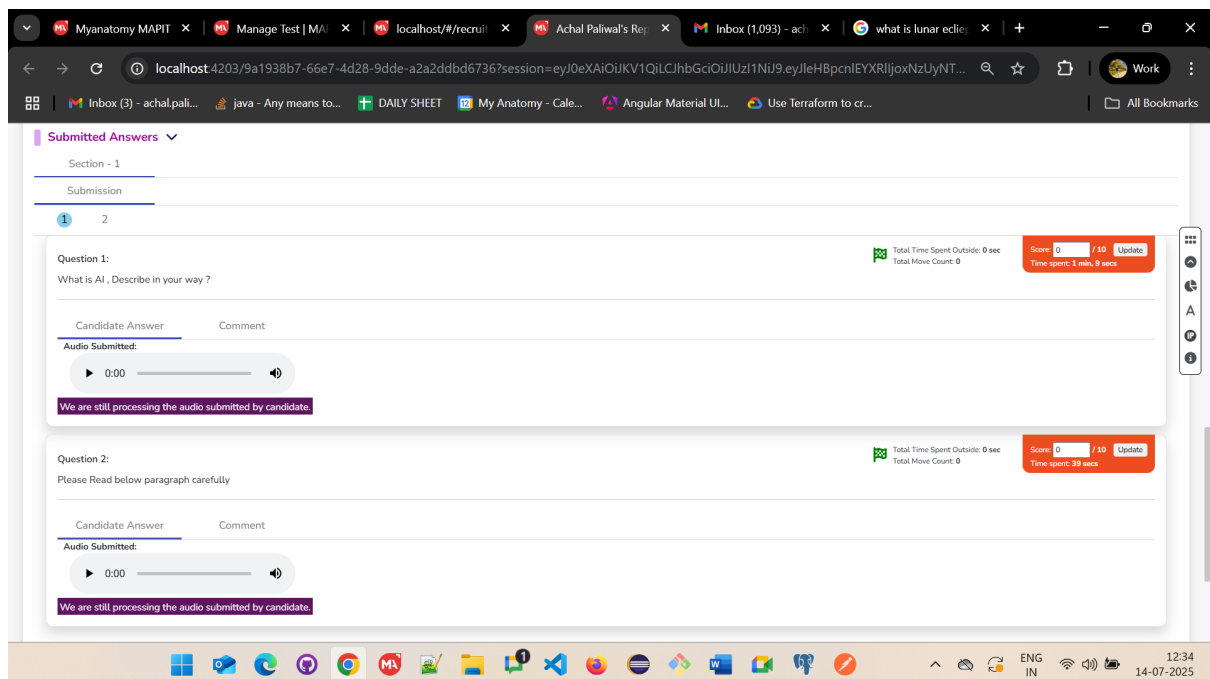

### Existing Reading Question UI :

The screenshot shows a web browser window with the URL `web.mymapit.in/recruiter/candidate/report/05c24312-5345-4bc3-add3-71b620b5402f`. The page is titled "Submitted Answers" and has tabs for "All Sections", "Speaking Question Section", "Reading Question Section", and "AI Interview Section". The "Reading Question Section" is active, showing "Question 1: Please Read the Paragraph below :". The "Candidate Answer" tab is selected, displaying a text area with the candidate's answer. The text area contains a paragraph about software developers: "Software developers are the creative minds behind computers, programs and systems, designing, building, and maintaining the software that runs our daily world. They translate user needs and client space into functional software by applying their programming skills to write code, build components, and ensure the software operates effectively. Their work encompasses the entire software development life cycle, from initial design to deployment and ongoing maintenance. Become a Better Developer by Reading Source Code - Steve. Software developers work with various technologies and tools using programming languages like Java, Python, C++, etc. to create applications ranging from mobile apps and websites to operating systems and video games. They collaborate with other professionals, including software engineers, designers, and testers to bring software solutions to life. A key aspect of their role involves analyzing user needs, designing software solutions, writing code, testing the software, and addressing any issues or bugs that arise." To the right of the text area, there is a "Candidate transcript" section with the text: "Each parish was formerly coercive. Force strong. Force strong." The top right corner shows a score of 0.57 / 10 and a time spent of 10 mins, 2 secs. The bottom of the browser window shows the Windows taskbar with various application icons and the system clock indicating 12:27 on 14-07-2025.

Some More Cases If Candidate not attempt this type of question, then UI:

id candidate answer evaluation is in processing then:

And If candidate Audio is not in English language this case :

we show one line : candidate is either mute or the submitted audio is not in English language .
